SELF-DECLARATION of CONFORMITY to IATA DANGEROUS GOODS REGULATIONS

Products	UN/ID No.	Proper Shipping Name	Special provisions IATA	Comment
YAMAHA Nickel-Metal Hydride Battery (JWB2)	UN3496	Batteries, Nickel-Metal Hydride	A199	JWB2 is classified, by IATA Dangerous Goods Regulation 67th edition and must be transported in accordance with special provisions on the left.

Verdict and Instructions	YAMAHA Nickel Metal Hydride Battery (JWB2) is applicable to the above Special Provisions. Therefore, the battery is transportable by aircraft when the user and the operator follow the instructions in the above provisions. Follow the instructions below to prevent a short circuit and unintentional activation: The battery must be removed from the vehicle. The battery must be protected from short circuit by insulating the terminals (e.g. by protective cap). The removed battery must be protected from damage for example by placing each battery in a protective pouch. Final instructions are subject to airline companies with reference to this document.
